Dear Customer,

This letter is in response to your request for information regarding the below listed product, as supplied by Trinseo LLC or its affiliates.

- CALIBRETM MEGARADTM 2081-15 FC030105 Transparent Polycarbonate Resin

EU Commission Regulation (EC) No 1907/2006 – ANNEX XVII

The Annex XVII of the EU Parliament and Council Regulation (EC) No 1907/2006 (18.12.2006) (the REACH Regulation, last amended by Regulation (EU) 2023/923 of December 12, 2023), contains restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles.

This is to certify that the above mentioned product complies with the provisions of Annex XVII of the EU Parliament and Council Regulation (EC) No 1907/2006.

Regulation 2023/2055/EU (Synthetic Polymer Microparticles), Entry 78, Annex XVII

Beads and Pellets fulfill the definition of a synthetic polymer microparticle in the meaning of structure and size (0.1µm – 5mm; Entry 78, No. 3.), but are exempt when used at Industrial sites (Entry 78, No. 4.). Please consult the regulation for further obligations for downstream-users (e.g. applications, reporting duties).

Persistent Organic Pollutants (POPs)

To the best of our knowledge, the above mentioned product is not intentionally manufactured or formulated with the substances listed below:

- Persistent Organic Pollutants (POPs)

California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986)

In addition to Bisphenol A, the above-mentioned product contains methylene chloride (CASRN 75-09-2) below 10 ppm. Because both Bisphenol A and methylene chloride levels are at or below California Propositions 65's "safe harbor level" as determined via risk assessments, these chemicals are not required to be listed as Prop 65 chemicals on the SDS or label.

If you have any additional questions or comments, please feel free to contact me.

Sincerely,

Bruce Gutzmann
