Dear Valued Customer,

I have evaluated the product listed above for compliance with the below regulation(s). The information below is based upon information from raw material suppliers and is accurate to the best of my knowledge at the time of this writing.

This information should not be construed as guaranteeing specific properties as the status of the product(s) could change, because laws and regulations are continually being revised. We do not perform routine testing to detect the presence of contaminants or regulated chemicals. It is the responsibility of the end user to test the product and determine if the specific product complies with the requirements of the intended application.

The product above:

- Complies with REACH registration requirements listed in (EC) No 1907/2006.
- Complies with the Restriction of the use of Hazardous Substances (RoHS) EU Directive 2015/863 (RoHS 3). The regulated metals, flame retardants, and phthalates are not intentionally added nor are they used during our manufacturing process.
- Does not contain any substances (at or above 0.1% by weight) listed on the EU's REACH Substances of Very High Concern (SVHC) list which was last updated January 23rd, 2024.
- Does not contain any components considered to be genetically modified organisms (GMO).
- Does not contain natural rubber latex nor dry natural rubber.
- Does not contain any materials derived from animal sources; our manufacturing processes also do not use any products containing animal derived materials. There would be no potential for Transmissible Spongiform Encephalopathy (TSE) or Bovine Spongiform Encephalopathy (BSE) when using this product.
- Does not contain heavy metals at a detectable level. o Heavy Metals are not used, nor are intentionally added during the manufacturing process.
- Does not contain nor is manufactured with Ozone Depleting Chemicals.
