Re: VCN81124 Lock Ring Blue, VCN41061 Lock Ring Red & VCN71060 Lock Ring Green

Dear Valued Customer,

The product above has been reviewed for compliance with the following regulatory requirements. The information below is based upon information from raw material suppliers and is accurate to the best of my knowledge at the time of this writing.

EU REACH SVHC

The Registration, Evaluation, Authorization and Restriction of Chemicals Regulation **EC 1907/2006**, commonly referred to as **REACH**, is a European regulation on chemicals and their safe use. In **Article 57** of the REACH Regulation, criteria are laid down to identify substances of very high concern (SVHCs) for inclusion as candidates for inclusion on the Authorization list. EU or EEA suppliers of articles which contain substances on the Candidate List are required to be disclosed if their presence is greater than the threshold of 0.1% w/w (1000 ppm) in the final article. As of January 21st, 2025, the candidate list contains 247 substances with the addition of five new substances. Our products above do not contain any substances (at or above 0.1% by weight) listed on the candidate list.

EU REACH Annex XIV

Annex XIV of **REACH**, also known as the **Authorization List**, contains substances after the sunset date need to prepare an application for authorization for use. The products above do not contain any substances listed on the authorization list.

EU REACH Annex XVII

Annex XVII of **REACH**, also known as the **Restricted List**, contains a list of restricted substances (on their own, in a mixture or in an article) for which manufacture, placing on the market or use is limited or banned in the European Union. Annex XVII contains restrictions of use for certain substances in specific applications. The products above do not contain any substances subject to restriction.

If you have any questions regarding the information above, please contact me.

Best Regards,

Christopher Ptak
