

Roettele Industries, Inc.

**EU POP Compliance Statement
Roettele Industries Discs
Viton 19-0408-1 & 19-008-2, Neoprene 19-0408-3 & 19-0408-4**

October 14, 2025

Dear James Wagner,

Roettele Industries hereby declares that all subject titled products manufactured and supplied by our company are **compliant with the European Union regulations concerning Persistent Organic Pollutants (POPs)**, including Regulation (EU) 2019/1021.

The materials used in these products: **Viton (fluoroelastomer) and Neoprene (polychloroprene)**—do not contain restricted POP substances above the allowable thresholds established by the regulation.

This declaration is based on our **supplier certifications, internal quality control, and material safety documentation**, ensuring that the products meet EU POP requirements for import, distribution, and use within the European Union.

Feel free to call me at 909-606-8252 if you have any questions about this matter.

Sincerely,

Lance Roettele
